Licensing Terms

Genesis World Energy charges a substantial one-time licensing fee at the time a license is awarded. This helps assure that a licensee will not acquire a license with the intention of keeping the technology off the market. Upon the award of a license, the licensee automatically receives 100% financing for the cost of the license at seven percent interest (APR), amortized over a thirty-year term. There is no prepayment penalty for those licensees wishing to pay off the entire balance early to reduce interest costs.

Licensing Fee Structure

Applicants who meet the licensing requirements and submit their preliminary proposals of intent as outlined in the [Application Process](#), will subsequently receive specific fee information.

Fees will be based on the following:

1. Non-Competitive Market Based Non-US Nations
(Includes manufacturing, distribution, end customer marketing and service licenses)
2. Economical Non-US Single Output Version Only Licensing Package
(Includes manufacturing, distribution, end customer marketing and service licenses)
3. Developing Nations Humanitarian Package
Economical Single System Version Only Licensing Package
(Includes manufacturing, distribution, end customer marketing and service licenses)
4. Non-US Competitive Private Industry
 - a. Manufacturing
 - b. Distribution, Marketing and Service
5. Non-US Competitive Private Industry - Small Business* (100 Employees or Less)
Note: License fees are increased proportionately to large business fees 60 months after receiving the license, unless employment is less than 500 persons at that time.
 - a. Manufacturing
 - b. Distribution, End Customer Marketing and Service
6. United States, Canada and Mexico - Competitive domestic industry with access to all available regional sales channels (US, Canada & Mexico)
 - a. Manufacturing
 - b. Distribution, End Customer Marketing and Service
7. US, Canada and Mexico Domestic Specialty Product Markets - Custom configurations of Edison Device technology for use in non-Edison Device products (Excludes products related to supplying energy to internal combustion vehicle engines and fuel cell based vehicles).
 - a. Manufacturing
 - b. Distribution, End Customer Marketing and Service
8. US Competitive Private Industry - Small Business* (100 Employees or Less)
 - a. Manufacturing
 - b. Distribution, End Customer Marketing and Service

***Special financing is available for small businesses over and above 100% financing.**
