Post Office Box 62

Oak Ridge, Tennessee 37831

August 10, 2016

Re: OSTI-2016-01064-F

Dear Mr. Ravnitzky:

This is in final response to the request for information you sent to the Department of Energy (DOE), Office of Scientific and Technical Information (OSTI) under the Freedom of Information Act (FOIA), 5 U.S.C. 552 on June 22, 2016.

You requested a "copy of records, electronic, or otherwise, of each letter TO and FROM universities, companies, and organizations, from the OSTI 'cold fusion' documents collection." On July 11, 2016, you were emailed an interim response letter informing you of the need for OSTI to obtain release authorization from the Department of Energy. OSTI received notification to release the letters to you in their entirety on August 8, 2016. As a result, OSTI is releasing 72 cold fusion letters in this mailing on a CD-ROM because of the volume and file size of the PDFs.

In addition, there are approximately 13 letters that are currently being reviewed by the DOE's General Counsel Office (GC) for release or redaction. Upon receipt of guidance from GC, OSTI will release in whole or in part.

This decision, as well as the adequacy of the search, may be appealed within **90** calendar days from your receipt of this letter pursuant to 10 C.F.R. § 1004.8. Appeals should be addressed to Director, Office of Hearings and Appeals, HG-1, L'Enfant Plaza, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585-1615. The written appeal, including the envelope, must clearly indicate that a FOIA appeal is being made. You may also submit your appeal to [OHA.filings@hq.doe.gov](mailto:OHA.filings@hq.doe.gov), including the phrase "Freedom of Information Appeal" in the subject line. The appeal must contain all of the elements required by 10 C.F.R. § 1004.8, including a copy of the determination letter. Thereafter, judicial review will be available to you in the Federal District Court either: 1) in the district where you reside; 2) where you have your principal place of business; 3) where DOE's records are situated; or 4) in the District of Columbia.

You may contact OSTI's FOIA Public Liaison, Charlene Luther, Office of Preservation and Technology at 865.576.1138 or by mail at the Department of Energy, Office of Scientific and Technical Information, 1 Science.gov Way, Oak Ridge, TN 37830 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer.

The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at [ogis@nara.gov](mailto:ogis@nara.gov); telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you have any questions about the processing of the request or about this letter, please contact Madelyn M. Wilson at

Sincerely,

Madelyn M. Wilson

Dr. Robert Simon  
Department of Energy  
1000 Independence Ave. S.W.  
Washington, D.C. 20585

Dear Dr. Simon:

This firm represents William L. Telander. In 1992, Mr. Telander assisted in setting up a scientific research group which included Mr. Joe E. Champion, Jr., and Dr. John O'M. Bockris, Distinguished Professor of Texas A & M University. The name given this group by Mr. Telander was The Philadelphia Project.

This letter is to put you on notice that on May 14, 1992 Joe E. Champion, Jr. assigned, transferred and conveyed to William L. Telander any and all interest he then had and/or may acquire in certain scientific theories, technologies, and/or related experimentation or findings that may be discovered or result as more fully set forth in a copy of said assignment attached hereto and made a part hereof.

Mr. Telander has reason to believe that Mr. Champion or certain persons on his behalf are presently promoting the scientific theories as recited in the above assignment as Champion's or their sole intellectual property rights and that Mr. Champion or such persons are therefore violating the specific terms of said assignment. Mr. Telander has further reason to believe that certain persons have come into possession of said scientific theories and formulae as recited in said assignment and are promoting such theories and/or formulae as their own intellectual property rights.

Mr. Telander therefore considers and gives notice that any participation in the promotion of said scientific theories and/or

Dr. Robert Simon  
August 19, 1993  
Page 2

formulae shall be viewed as a tortious interference with the property rights enumerated in such assignment. Mr. Telander further gives notice that he has been named as a defendant in an action entitled SEC v. Southwest International Exchange, et al., Case No. 93-1285, pending in the United States District Court, Central District of California and an "Order of Preliminary Injunction and Orders: 1) Freezing Assets; and 2) Prohibiting Transfer of Assets and Destruction of Documents" was entered in that case on March 25, 1993. Mr. Telander considers the aforementioned assignment as an asset frozen under the above order.

Very truly yours,

Glenn D. Young, Jr.  
of YOUNG, BOGLE, MCCAUSLAND  
WELLS & CLARK, P.A.

GDY:jb

Enclosure

cc: Mr. William L. Telander

AGREEMENT

For ten dollars (\$10.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, I, Joe E. Champion, Jr., hereby transfer and convey to William L. Telander, his heirs and assigns, one hundred per cent (100%) of any and all interest I now have and/or may have and/or may acquire, in the following scientific theories, technologies, and/or related experimentation or findings, including, but not limited to, any scientific theories, technologies, and/or related experimentation or findings that may be discovered or result therefrom:

1. Chemical/Thermal Transmutation of non-precious metals into Noble metals;
2. Electro Magnetic Resonance Stimulation of selective isotopes including, but not limited to, transmutation of non-precious metals into Noble metals and neutralization or lowering of half life of select forms of radioactive waste; and
3. Negative Energy Nuclear Reaction including, but not limited to, validation of Cold Fission and/or reversing the process to create Cold Fusion.

I further hereby disclaim any and all interest I have and/or may have and/or may acquire, in any and all equipment and/or personal property, or technological or scientific information, either purchased or otherwise acquired in connection with or for use in the above mentioned scientific theories, technologies, and/or related experimentation.
