Subject: Australasian Exclusive E-Cat (Cold Fusion) License

Hi there Dick,

Cold Fusion is now a commercial reality, and will replace dirty fossil fuel, coal, oil and gas AND deadly Uranium as the World's new Clean Green Power.

This is a highly lucrative trillion dollar market opportunity.

Byron New Energy Charitable Trust is set to acquire the exclusive Australasian E-Cat Cold Fusion License from Andrea Rossi in Italy.

Rossi's Cold Fusion is a commercial reality with 14 x 1Mw plants already sold in the USA and Europe to groups such as NASA and DARPA and commercial companies.

We have been negotiating with Andrea Rossi for many months and the contracts have been agreed and I am scheduled to fly to Bologna Italy to sign the agreement and pay the license fee.

We need the \$200K risk capital to enable this.

We believe you, dear Dick are a person who will appreciate this opportunity and supply the initial risk capital.

Huge profits will come from this venture. And our World will be made Clean and Green.

Obviously we need to act quickly.

You can read all about this commercially viable technology on the website www.ecat.com

This technology is REAL.

If you get into this project now you as an investor stand to make huge profits.

If you wish to work with Byron New Energy (BNE for short) and sell this E-Cat device, BNE can offer you in the region of \$300,000 PROFIT per sale of 1 x 1Mw Unit. The device retails at 2 million Euros, which is relatively very cheap in the Energy Industry.

The E-Cat in essence delivers power with no fuel input over a period of 20 years!

The science behind this invention that is set to change the World as we know it is Cold Fusion.

Dirty energies, ie. fossil fuels, oil and gas, and uranium power will all be replaced by clean green renewable energy... Cold Fusion.

Cold Fusion, uses the fusing of Hydrogen and Nickel at low temperature to form Copper (the dream of Alchemy has come true!) releasing huge amounts of safe (no radiation) atomic energy which currently is captured by turning water into steam for heating/cooling/power purposes.

BNE has done all the hard work and has organised to fly to Italy, to sign the exclusive Australasian E-Cat agreement with Andrea Rossi.

If you are interested in supplying this finance and taking part in this amazing project please contact

Sol Millin 0403649994 solmillin@gmail.com

BNE is a not for profit humanitarian trust set up to research new renewable energy. Here is our Mission Statement below.

BNE Mission Statement

Byron New Energy Charitable Trust is a not for profit organisation with the following mission statement.

The group has a goal of love and selfless service to humanity at large, of researching, developing, publishing freely in the public domain for the good of humanity at large, and manufacturing, devices that use clean renewable energy sources that supply viable alternatives to those devices that use non-environmentally friendly non-renewable fuels such as nuclear and fossil fuels.

Hopefully, a number of these BNE devices will be over unity (develop more power than apparently is consumed) by using generally renewable cosmic energy sources. In this way 'free' or very low cost renewable clean energy may be made available to humanity at large. This mission may thus fulfill a major requirement to enable humanity to move towards the Golden Age.

These devices will include but not be limited to making use of gravity, anti-gravity, electromagnetic, electronic, magnetic, water, hydrogen, oxygen, zero point or vacuum or radiant energy and/or cold fusion and may also include other potential sources of cosmic energy. The group will be formed by a core of active participating members who will be responsible for all group decisions.

The group will be positive and supportive and no coercion will be used and will encourage 'out of the box' thinking.

Each person will bring constructive complimentary resources to the group including enthusiasm, expertise, their time, technical skills and materials and machines, money, premises etc. etc. The group in general will interact freely and share information and resources with all and any persons and organizations that have similar aims to the group.

My resume follows:

Solihin Millin 67 years Australian

1st class B.Sc. Degree Physics Applied Mathematics

Scholar of the Year 1960 Hilton College, South Africa

Founder and Trustee – Byron New Energy Charitable

Trust www.byronnewenergy.com

Sathya Sai Baba Devotee

Values: Truth, Love, Virtue, Peace, Non-violence

Has been doing Service in Byron Bay District and Africa since 2002.

Previously successful IT Consultant - Senior Systems Architect

Raised three children in Melbourne, Australia, Sarah 32, Daniel 31 and James 29

Consulted for Telecommunications Companies particularly Telstra and Banks,
eg. National Bank of Australia

Owned and managed Melbourne based 'Future Business Systems' Software
developers 1981 -1989

Worked as Systems Engineer with IBM

Well travelled

Interests: God and Spirit, Consciousness and Healing, New Clean Green Energy
Systems, New Physics and the Wave Structure of Matter

Love and peace,

Sol
