Welcome

Welcome to the Byron New Energy wiki website.

This website has been set up to encourage and create not for profit international humanitarian design, development, and construction and distribution of clean renewable energy sources and machines for the Golden Age of Humanity.

This site has just been born (birthday 14th October, 2005) so she's still quite unformed cute and delicate. Please handle her with love.

Geographically, Byron Bay lies on the most easterly cape of Australia in a pristine sub-tropical paradise in an ancient volcanic caldera, the largest in the southern hemisphere.

Many 'new age' souls have been drawn here by Byron's magnetic beauty. Bordered by the blue Pacific ocean and lush sub-tropical green forested hills, Byron Shire is the perfect place for us to launch this wonderful experiment.

We hope you will take part and soon our world will be embued with clean renewable health giving, energy, transport and communication devices that can support our wonderful future society.

These devices will also help eliminate poverty and hardship around the world and bring prosperity and happiness to our

BNE Mission Statement

Here is our BNE (Byron New Energy) Mission Statement:

We have started a New Energy Group in Byron Bay, Australia called Byron New Energy Group, or BNE for short. BNE Mission Statement

To establish a not for profit humanitarian group.

The group has a goal of love and selfless service to humanity at large, of researching, developing, publishing freely in the public domain for the good of humanity at large, and manufacturing, devices that use clean renewable energy sources that supply viable alternatives to those devices that use non-environmentally friendly non-renewable fuels such as nuclear and fossil fuels.

Hopefully, a number of these BNE devices will be over unity (develop more power than apparently is consumed) by using generally renewable cosmic energy sources. In this way 'free' or very low cost renewable clean energy may be made available to humanity at large. This mission may thus fulfill a major requirement to enable humanity to move towards the Golden Age.

wonderful human family.

Let's Change the World

GOODBYE
FOSSIL FUELS, OIL, GAS, FRACKING,
AND URANIUM

HELLO CLEAN, GREEN, RENEWABLE, INEXPENSIVE
COLD FUSION

YOU ARE INVITED TO A PUBLIC MEETING

Take part NOW in an amazing altruistic
and potentially highly financially rewarding opportunity to
introduce Cold Fusion to Australasia NOW.

THIS IS REAL

How often have we in our Byron and Tweed Shires talked of

- Cleaning and greening our beautiful Planet
- Alleviating suffering amongst our beautiful Peoples
- Localisation

This is your chance to take part in this amazing start
to 2012 and the Golden Age of Humanity

Friday 13th January - 8 to 10pm
Auditorium Mullumbimby Ex-Services Club
Dalley Street Mullumbimby NSW 2482

**WE ARE THE PEOPLE WE HAVE BEEN
WAITING FOR**

For more information
Contact Sol Millin 0403 649 994 or solmillin@gmail.com
Founder and Trustee - Byron New Energy Charitable Trust
www.byronnewenergy.com

Watch our introduction video

[click here (<http://www.youtube.com/watch?v=JfFahPkLUck>)] 

Watch our introduction video now to get an impression what our cosmic water cell is all about. The cosmic water cell will provide for free energy that will render petrol useless. Can you imagine your car running on our free energy? Could this really be done? Be your own judge and watch this video.

read more...

These devices will include but not be limited to making use of gravity, anti-gravity, electromagnetic, electronic, magnetic, water, hydrogen, oxygen, zero point or vacuum or radiant energy and/or cold fusion and may also include other potential sources of cosmic energy. The group will be formed by a core of active participating members who will be responsible for all group decisions.

The group will be positive and supportive and no coercion will be used and will encourage 'out of the box' thinking.

Each person will bring constructive complimentary resources to the group including enthusiasm, expertise, their time, technical skills and materials and machines, money, premises etc. etc. The group in general will interact freely and share information and resources with all and any persons and organizations that have similar aims to the group.

In the news

Historic Mullumbimby BNE Announcement of Cold Fusion in Australasia

Our historic meeting was a great success. About 100 locals attended. You can download the slide set presented at this meeting here (<http://www.byronnewenergy.com/wiki/UserData/Mullum%20Presentation%20ver%201.1.6.5.ppt>) . Make sure your browser is active and follow the embedded url links in the presentation to watch very informative videos on Cold Fusion, Andrea Rossi, and Andrea Rossi's amazing E-Cat Technology.

Love and peace, Sol

Andrea Rossi has announced the Commercial availability of Cold Fusion to the World

Andrea Rossi has announced the commercial availability of Cold Fusion to the World. As of

How can you contribute?

Very simple... you can add and edit most pages in this BNEwiki... [read more...](#)

Today's featured articles

Some real good websites

While browsing we've come across some really good stuff. Here they are [read more...](#)

Let's do it

Dear reader enjoy your travels and adventures on our BNE wiki website.

May we all gain from your knowledge and experiences.

Love and Peace,

from the BNE Administrators and group members.

now orders can be placed with www.ecat.com for 1MW (heating only) E-Cat Cold Fusion engine. [ecat.com](http://www.ecat.com) (<http://www.ecat.com>) is the first website offering E-Cat technology to the world. Many of your questions about Cold Fusion and the E-Cat technology will be answered on this website. Other good websites are ecatnews.com (<http://ecatnews.com>) and [peswiki](http://www.peswiki.com) (<http://www.peswiki.com>) .

Of many and numerous experiments and demonstrations of the E-Cat technology, including the 1Mw demonstration on the 28th October, 2011 in Bologna, here are details of a test done on the 29th March 2011, which prove the veracity of Andrea Rossi and the E-Cat technology because of:

- The qualifications of the observers.
- The clarity of their observations.
- The clarity of documentation of their observations.
- The independence of the observers.

For full report see Kullander and Essen Test Report (<http://www.nyteknik.se/incoming/article3144960.ece/BINARY/Download+the+report+by+Kullander+and+Ess+C3%A9n+%28pdf%29>)

Apart from numerous other clear evidence tests of the veracity of the E-Cat technology, Kullander and Essen's observations give clear and direct evidence:

Discussion. Since we do not have access to the internal design of the central fuel container and no information on the external lead shielding and the cooling water system we can only make very general comments. The central container is about 50 cm³ in size and it contains 0.11 gram hydrogen and 50 grams nickel. The enthalpy from the chemical formation of nickel and hydrogen to nickel hydride is 4850 joule/mol [6]. If it had been a chemical process, a maximum of 0.15 watt-hour of energy could have been produced from nickel and 0.11 gram hydrogen, the whole hydrogen content of the container. On the other hand, 0.11 gram hydrogen and 6 grams of nickel (assuming that we use one proton for each nickel atom) are about sufficient to produce 24 MWh

through nuclear processes assuming that 8 MeV per reaction can be liberated as free energy. For comparison, 3 liters of oil or 0.6 kg of hydrogen would give 25 kWh through chemical burning. Any chemical process for producing 25 kWh from any fuel in a 50 cm³ container can be ruled out. **The only alternative explanation is that there is some kind of a nuclear process that gives rise to the measured energy production.**

(my highlighting of final comment)

This highlighted comment is by Sven Kullander the Chairman of the Science Academy of Sweden and Professor Emeritus of the University of Uppsala (Sweden); Hanno Essen is Prof. of nuclear Engineering at the University of Stockholm (Sweden) and former chairman of the Swedish Skeptics Society.

Their reputations are obviously on the line. To have made such a statement they must have been very very sure of what they observed.

Concerning the 28th October test of the 1Mw E-Cat device in Bologna:

The primary reason for the 28th October test of the 1Mw E-Cat device was a performance test for the Customer. It was controlled by the Customer. The public were invited I believe, to witness the test as further evidence of the veracity of the E-Cat technology. The test was not primarily arranged for independent testing of the E-Cat device by the public or any particular group of scientists/journalists. The E-Cat was not yet fully protected by worldwide patents, and thus it seems quite reasonable that the public would be excluded from various parts of this performance test.

There is certainly no radiation coming from the device or any radwaste accumulated in the device. This has been confirmed to me in writing by Andrea Rossi.

Love and peace, Sol.

BNE hosted Stephen Bassett - 7pm 20 July 2010

Stephen Bassett is a leading advocate in the USA for ending the 61-year government imposed truth embargo regarding an extraterrestrial presence engaging the human race. He is a political activist, lobbyist, commentator and columnist. He is the founder of the Paradigm Research Group, the Executive Director of the Extraterrestrial Phenomena Political Action Committee (X-PPAC), the creator of the Paradigm Clock and the executive producer of the X-Conference. His work has been covered extensively inside and outside the United States. See PRG Media Coverage.

Since 1996 Bassett has assisted numerous organizations and initiatives working to 1) raise public awareness, 2) convene open Congressional hearings to take government witness testimony, and 3) end the truth embargo. He has appeared on hundreds of radio and television talk shows and in numerous documentaries speaking to millions of people about the implications and likelihood of "Disclosure" - the formal acknowledgement of the extraterrestrial presence by world governments. See Stephen's website Paradigm Research Group (<http://www.paradigmresearchgroup.org/main.html>) .

Nassim Hamein came to Murwillumbah pm 1 August 2010

World renowned Physicist whose theories have uncovered the basic common structure of all things in our Universe, from sub atomic particles to Galaxies is visiting Murwillumbah in the evening of the 1 August.

As early as 9 years old, Nassim was already developing the basis for a unified hyperdimensional theory of matter and energy, which he eventually called the "HoloFractographic Universe." See Nassim's website The Resonance Project (<http://www.theresonanceproject.org>) .

Nassim has spent most of his life researching the fundamental geometry of hyperspace, studying a variety of fields from theoretical physics, cosmology, quantum mechanics, biology and chemistry to anthropology and ancient civilizations. Combining this knowledge with a keen observation of the behavior of nature, he discovered a specific geometric array that he found to be fundamental to creation, and the foundation for his Unified Field Theory emerged.
