Lefteri,

I have heard that you have recommended that Emil Venere should not go forward with his news release on the subject because Revankar is not extensively quoted. Emil and Rusi have both complained to me. I have sought advice from higher University officials and they have informed me that it is not acceptable to stop the news release based on your assessment that Professor Revankar has not been given as much visibility as you see appropriate.

We need to talk. I am available at 427 1500.

Best,

Jay
