Hi. Thanks. I was looking at the press release here... it says you were supervising, I think it is the 15th paragraph.

Do you know how this mistake got into the press release?

The release also says that this was independent work before Dr Taleyarkhan's supervision of anybody. Is this wrong/right?

Best Wishes,

Eugenie

Dear Eugenie,

I had absolutely nothing to do with the paper and the work reported. Dr.

Yiban Xu is a postdoctoral researcher working for Dr. Taleyarkhan. Mr.

It was at the time an MS student supervised by Dr. Taleyarkhan. He graduated with an MS

degree in December 2005 and I understand that he no longer works with Dr. Taleyarkhan.

Their emails are yiban@ecn.purdue.edu and butt@ecn.purdue.edu.

Please let me know if I can be of any help.

Best.

Lefteri
