Leah H. Jamieson
Interim Dean of Engineering
Ransburg Professor of Electrical & Computer Engineering

July 11, 2006

Mr. Adam Butt
7584 Old Madison Pike NW
Apt. 703
Huntsville, AL 35804

Dear Mr. Butt:

On April 17, 2006, an Examination Committee was formed by Dr. Peter E. Dunn on behalf of Dr. Charles O. Rutledge, Vice President for Research, to examine facts and circumstances in connection with certain aspects of sonofusion research at Purdue. In a letter dated June 9, 2006, Dr. Rutledge asked me to treat the Examination Committee's report and related materials referenced in his letter as an allegation of misconduct under Purdue University's Executive Memorandum No. C-22, and to form an Inquiry Committee under C-22.

The purpose of this letter is threefold. First, as required by C-22, I am informing you of the allegations of possible research misconduct against you referenced in Dr. Rutledge's letter and in the materials referenced in that letter.

Second, I am informing you that I am in the process of appointing an Inquiry Committee under C-22 to assess the merits of the allegations and to decide whether further investigation is warranted. Prof. Andrew S. Hirsch, head and Professor of Physics (chairperson); Prof. Michael R. Ladisch, Distinguished Professor of Agricultural and Biological Engineering; and Prof. Timothy D. Sands, Basil S. Turner Professor of Materials Engineering and Electrical and Computer Engineering, have agreed to serve. Please let me know as soon as possible, but no later than Monday, July 17, 2006, if you believe that any of these individuals has a specific, serious conflict of interest which should keep him from serving on this committee. If so, please describe the perceived conflict in detail in writing to Dr. Dunn. Unless such a conflict is identified and confirmed by July 17, these three individuals will go forward as the Inquiry Committee under C-22.

Third, I am enclosing a copy of a memorandum (with attachments) which I will provide to the Inquiry Committee once its membership has been confirmed. This memorandum explains the Inquiry Committee's charge.

As specified in C-22, no information about the existence and nature of the allegations, or about the proceedings of the Inquiry Committee, may be disclosed. You may not take any actions that could be interpreted as retribution, punitive or damaging in any sense against any person as a result of the proceedings addressed in this letter. This extends to the individuals who served as members of the Examination Committee.
