

Institut für Gravitationsforschung

Research Prize

**Sponsored by Göde Science Foundation
of 10.000 Euro
with the topic**

**Gravity Effects at Low Energy Nuclear
Reactions (LENR)**

Institut für Gravitationsforschung

- **Is Gravity really fundamental or can it be influenced by other forces?**
- **Do Gravity and LENR effects (heat, particles,...) have the same source?**
- **Are fluctuations of the Zero Point Energy (ZPE) the common source?**
- **May strong Gravity be an explanation for LENR Mechanism?**

Institut für Gravitationsforschung

Submit your project until March 31. 2005:

- **Short description of the research project (5 pages max.)**
- **Optional material (drawings, diagrams, etc.)**
- **Curriculum vitae / publications**
